Bekasi, West Java, Indonesia

Frontend Developer specializing in JavaScript technologies such as Next.js and React.js, experienced in building responsive and scalable UIs with Tailwind CSS, integrating RESTful APIs with Laravel and Firebase, and working in micro-frontend and microservices-based environments within agile teams.

## Work Experiences

### PT. Bank Rakyat Indonesia - Jakarta, Indonesia

Jun 2023 - Present

#### Frontend Developer

PT Bank Rakyat Indonesia (Persero) Tbk is one of Indonesia's largest state-owned banks, focusing on micro, small, and medium enterprises (MSMEs) and providing comprehensive banking and digital financial services nationwide.

- Developed and optimized responsive web applications to support corporate and retail banking operations, focusing on performance, reliability, and user experience.
- Handled bulk Mass transfer features, enabling high-volume domestic and international (UKLN – overseas) transactions through BRI with strong emphasis on accuracy, security, and regulatory compliance.
- Delivered scalable solutions for international corporate banking units, supporting complex cross-border transaction flows and large-volume financial data processing.
- Implemented Micro Frontend architecture to enable modular development, improve maintainability, and accelerate delivery of digital banking solutions.
- Utilized modern frontend technologies including React.js, Next.js, Tailwind CSS, HTML5, CSS3, and JavaScript (ES6+).

### BPB - Bogor, Indonesia

Jan 2020 - Sep 2023

#### Frontend Developer

- Developed and delivered diverse projects for web, mobile, and desktop platforms using modern frameworks (Angular, ReactJS, Ionic, Laravel, CodeIgniter, PHP).
- Projects included: school payment systems, pharmacy sales applications, event scanning apps, sports booking platforms, academic management systems, and company profiles.

### CV. SOLUSI-IT - Bekasi, Indonesia

Jul 2019 - Nov 2022

#### Full Stack Developer

- Delivered various projects using CodeIgniter and Laravel.
- Worked on company profiles, blogs, service management systems, e-commerce applications, e-card solutions, and custom applications (e.g., music studio rental & student attendance).

### PT Hung-A Indonesia - Bekasi, Indonesia

Jan 2018 - Mar 2018

#### IT Support Technician

- Conducted regular inspections and monitoring of computers used in the company's production department to ensure optimal performance, reliability, and smooth workflow operations.
